

Exporting references from the DOAJ® to EndNote®

The screenshot shows the DOAJ search results page for the query 'art'. The search results are sorted by Relevance, showing 11852 results. The first result is an article titled 'Book received: Towards a Science of Art History: J. J. Tikkanen and Art Historical Scholarship in Europe and The shaping of Art History in Finland'. The article is from the 'Journal of Art Historiography' (ISSN/PII: 1473-2875/10010), Volume 2, Pages 2, published by the University of Birmingham. The 'Export' button is highlighted with a red callout box labeled '1. click 'Export' to export chosen reference'. Below the article details, the 'Export bibliographic record' section is shown, with a 'Choose an application' dropdown menu. The 'EndNote' option is selected and highlighted with a red callout box labeled '2. click 'EndNote''. The 'Open' button is also highlighted with a red callout box labeled '3. click 'Open''. At the bottom of the page, a dialog box asks 'Do you want to open or save 556032.enw from www.doaj.org?' with 'Open', 'Save', and 'Cancel' buttons.

When EndNote is already running, the references will be exported in the opened library automatically. When EndNote is not running clicking 'Open' will force EndNote to start up, and the reference will be imported in the EndNote library which was last used.

References from DOAJ can only be exported one by one.
